Pays \$500,000 for 90 Percent of Stock in Chicago Na- tional League Club.	Desertions of Juarez Are Rapid; Strong Criticism of Methods in Force.	By R	Deal is Made by Farmers in Kansas City; Turkey In- dustry Grows in Eddy.		
Weeghman is the new owner of the Chi- cago National league club, having pur- chased 50 percent of the stock from Charles P. Taft for \$500,000. The deal was closed Wednesday. The actual sale, exchange of money	Conditions at the Junes race track are far from what persons interested in the track would desire. Desertions of horsemen to the Tis Junna, New Orleans and Havana tracks have been numerous and conditions in some of the races during the past few days have been such as to call forth criticism even	an article appeared stating that pear blight is here and that there is no doubt of the identity of the disease, as it has been fully deiar- mined by State college experts and the Twited States agricultural department.	push and shoots are being rapidly made, care should be taken that their vegetation receive no check for want of moisture; for if it is then stopped,	known that shoots made under circumstances are soft and watery, never becoming matured, consequently they are extremely liable to be affected by severe cold. Only an imperfect layer of alburnum is produced and portions of the cambium sometimes die, eren on the stem, a circumstance which	had project. To within a short time ago, these lands were listed by the Farmers' Irrigated Land company, but this company has not been entirely
on January 20. The sale of the Cubs partly served to complete the condition of the treaty of pears recently signed here, and at a meeting of the committee to settle the dispute between the Federal and International leagues, all other loose ends.	from persons who are usually strong hoosters of the game. A "selling war" was waged so bitterly at the track that the official press agent announced. Wednesday afternoon, that "beginning Thursday, no further claims in selling races will be allowed."	not be the case, atthough in many sec- tions other conditions have been mis- taken for the blight, such as sour sap, dle back, or where a pear branch be- comes blackened from any other cause. Real Cause Not Known, The real cause of pear blight and	Too Much Moisture Injurious. Too much moisture is very injurious, especially when it amounts to saturation and its coldness is equal to that of spring water. (Good drainage is absolutely necessary.) Moisture becomes far more injurious when the soil	having been supplied by the inner bark. All these derangements from unsensonable and imperfect growth tend to produce disease and the tree is in a condition of easy infection.	project. The Water Users have now taken over the good will of this company, and will handle the valley end of the sales at cost to the farmer. The association has made arrangements whereby the cost of commissions to the buyer will be materially reduced, and in a case will so over all to the
As peace treaty were put in order. Shortly after the Cubs had been sold, the National commission went into ses- sion and resisted August Harrmann as its chairman and John E. Bruce as its secretary. The original negotiations for the sale	In other words, there will be no seiling races. The purpose of a seiling race in to permit the "cheap" horses to have an equal chance with the best on the track. Thus, the "conditions" of entry may call for a certain weight for all horses entered at \$400. When the value of a horse is placed at \$600, that horse	from one tree to another have never been fully determined, and no success- ful treatment by outward application has been found, or is likely to ever prove effective. The disease is evi- dently a polsoning of the sap and not susceptible to outward applications.	pear tree that may have at one time too little moisture, is badly compen- sated by having at another time too much. Roots that are rendered inactive from being in dry soil cannot be sup- posed to act so well when an abundance	the soil should be avoided, as should manure applied so as to stimulate the tree to late growth. Must Be Checked. In the foregoing I have tried to show that it may be possible to induce	acre. Five traveling men will be put to work immedistely, selling the sur- plus Carlabad project lands. Claim Leadership in Variety. For sheer variety of products. Carlabad and Eddy county claim the premiership. The only registered
of the Cubs were between Harry F. Sinclair of Oklahoma, and Mr. Taft, and it was not until Mr. Weeghman arrived here today that he was identified in the negotiations, Mr. Sinclair having made all of the previous arrangements. None of the details of the sale were given out other than the amount of	must pack just so much additional weight. Under real selling race condi- tions a horse entered at a certain amount now be offered at a certain	disease is transmitted from branch to branch and tree to tree. by insects either feeding on the bloom or sucking the sap, and this poison is thus carried from tree to tree and from one location to other locations. According to Downing, recognized	of moisture reaches, them, as others that have never suffered from dryness. If we wished to induce disease in a tree, we should select one that had grown vigorously during continuous of abundant moisture, them, after having walted through the hottest weather and after the roots had absorbed all	blight without infection, as imposed treatment and neglect. As Frof Wickson says in his "California Fruita" regarding the hight in that state: "It is apprehended that neither paying crops nor living trees can be counted upon in the future, unless the disease is augeossfully kept under control by	on a Carisbas project farm; a rancher near there has a thousand dollar running horse; herds of pure bred Durham, thereford Holstein and Jersey cattle can be found, Percherons and English hard sires are located here, but the rery latest herd to come to
stock sold, the price and the fact that Mr. Weeghman has agreed to assume all the obligations accruing from the Westside busball park in Chicago, for a period of two years	ding up" horses entered for low amounts. This has caused considerable bad feel- ing at the track and caused many horsemen to decide to try in "pastures new." many of them going to the new track at Tia Juana.	frozen sap blight of the Americans may be the starting of all the frouble. The circumstances under which this disease is apt to occur are given by Downing as: A very sudden and early winter, succeeding a damp and warm autumn and similar conditions where	moisture within their reach, and could only afford a very inadequate supply to the leaves to make up for evaporation, we should afford it no assistance. Meanwhile the leaves, deprived of their regular supply from the roots, will drain the tree of much of its proper juices; growth will be arrested or	successful fighting, or by recourse to some form of natural immunity which can be discovered or developed by plant breeding." In a series of articles on fruits sulted to this section, published in your paper about three years ago, I took up this question of breeding to a limited extent. I expected at that time to de-	Walker and Smith, progressive young ranchers, plan to run on their dry land farm south of town a bard of 1500 Mammoth Byonze turkeys.

Successful Corn Grower Urges Planting Native Indian Corn in Arizona.

Chandler, Aris. Jan. 6.—Fifty carloads of hay have been shipped from Chandler since December 1. The shipments total soe tone, worth \$7200.

Favors Native Indian Corn.
C. A. Sutton, the most successful corn grower of the Chandler district, believes that Arizons farmers will do well to plant the native indian corn rather than the harder varieties of maise. He has experimented with several well known varieties, but never obtained a satisfactory yield until hatried indian corn. He has just harvested 225 bushels from five zeres. While not remarkable, this is a good yield.

Sution says that indian corn is not as hard on the soil as other varieties, and, being softer, is better stock feed.

nesday on the proposed recall of mayor James G. Woodward and five members of the Atlanta police commission showed majorities of approximately two to one against the recall.

Wents U. S. to Buy Canal. Washington, D. C., Jan. 8.—Purchase of the Chesapeake & Delaware canal for not more than \$2.500,000 and the expenditure of \$5,000,000 in improving and fortifying it was proposed in a bill introduced Wednesday by senator Saulsbury of Delaware. The canal would permit a force of submarines to be held at either of the two bays and used with equal efficiency in either, the bill relates.

El Pase Distilled Water Co., Ph. 489. Dr.Anna Reum,Buckler Bld.over Elite.
